Australian Fisheries Management Authority

INDEXED FILE LIST

1 July – 31 December 2024

in compliance with the
Senate Procedural Order 12 of Continuing Effect
Indexed lists of departmental and agency files

AFMA publish an indexed list of files created by the agency every 6 months in accordance with [the Senate Order 12-Indexed lists of departmental and agency files](#).

The listing does not include:

- files transferred to the National Archives
- case related files – for example personal representations or files dealing with personal affairs of departmental or agency clients or taxpayers
- files related to the internal administration of the agency such as staff or personnel matters
- files containing commercially confidential information
- files with a national security classification of Confidential, Secret, Top Secret or their equivalent
- files which would disclose deliberations and decisions of Cabinet.

In accordance with the order, some information in file titles has been deleted.

Background

On 14 November 1994, the Senate agreed to a motion by Senator Harradine requiring all Australian Government departments and agencies to produce an indexed list of files every six months for tabling before parliament. The list makes the operations of government clearer to the Australian public.

The Senate Order was amended in December 1998 to require all government departments and agencies to list files on their websites:

- created between 1 January and 30 June of that year in the central office of that department or agency – not later than the tenth day of the spring sittings
- created between 1 July and 31 December of the preceding year in the central office of that department or agency – not later than the tenth day of the autumn sittings
- [2024 Parliamentary Sittings Calendar](#)
